

HOUSEWORKS™ - Complete

Action Pact's Ever-Learning Subscription Suite

Our 12-month subscription offers an outstanding way for your organization to revitalize culture change efforts in your households. In addition, it will provide an opportunity to network and problem solve with peers in your area. The Subscription also gives you the opportunity to provide high quality training for staff. We all know the value of engagement and commitment; here is a way to make it happen.

INCLUDED IN THE SUBSCRIPTION

- 1. WORKSHOPS.** 60 slots throughout the 12 months of your subscription can be used for any of the 4 regional workshops that will be offered during the 12 months. Workshops will be presented by experts in the neighborhood/household model.
- 2. Two on-site visits to your organization from an Action Pact expert,** to address issues specific to your organization. During the visit we can provide staff training and/or consulting in dining, nursing, neighborhood/household life, organizational design or Human Resources in households. Planning of the curriculum for the day will be done via email, phone or Go-To-Meeting preceding the visit
- 3. Up to two Problem-Solving web meetings, at your request, specific and private to your organization.** You inform us of the problem ahead of time and we provide an expert to assist your team via web meetings. You may schedule these web meetings at any time during the 12 months of your subscription.
- 4. Eleven free months of 'Conversations with Carmen' webinars (live or recordings).**
- 5. Reproducible workbooks on Team, Nursing, Vibrant Living, Dining, and Regulations.**

Effort will be made to select training sites that are as centrally located as possible to minimize travel needs for everyone. Participating organizations will host the workshops, providing a chance for your staff to show off their hard work! This also gives your staff a chance to view how things are done in other places -- to keep us all pushing toward our goal of providing the best life possible for people living in households.

COST: \$1,000 per month, invoiced monthly.
