Involving Leadership

Dear Ask Pact:

We're all very excited about beginning to implement Culture Change in our facility. I feel that with such an ambitious venture, our first steps should be squarely on the right path from the very start. I'm beginning to make plans for a retreat with our department managers that will help us consolidate our vision of culture change in our home.

Can you help me with some topic ideas, and/or exercises we can do to help us articulate and coalesce some of the many visions we have been discussing into a clear picture that will have each of my managers moving forward in the same direction?
